FROM Cpl Dickie

SUBJECT: September Fire Hydrant Check

1. It is time to check the Airport Fire Hydrants again. Please complete your hydrant checks by 10-01-98.
2. There are 66 Airport hydrants plus 3 Seattle Hydrants we check: Total: 69 Hydrants. Each shift will do 23 hydrants. (22 Airport and 1 Seattle Hydrant).
3. There are four new hydrants around the new Hangar Holdings complex.
4. I have checked and marked all hydrants—including the new ones. I have annotated the Spring 98 hydrant list—to reflect new hydrants and new numbers. Refer to "Hydrant Lists Prior" in the Hydrant Book.
5. Please select the hydrants that you do on a random basis (no more than two in a row).  
**DO NOT MARK THE HYDRANT LIST OR LOG UNTIL YOU HAVE FULLY CHECKED THE HYDRANT.**
6. Prepare a work order on all hydrant defects except paint. I will issue new work orders for paint needs.
7. I will obtain more lithium grease—if we are out.
